

Paramesh 358

The premier security product in the Paramount Steel Fence mesh range is the Paramesh 358 system.

Paramesh 358 offers an alternative to 358 Prison Mesh fencing. It is the ultimate in welded mesh security fencing, providing a high degree of security for physical perimeter protection, whilst maintaining a discreet visual impact on the surrounding environment.

The panels are manufactured in a mesh pattern of 76.2mm x 12.7mm, using a 4mm diameter vertical wire. The horizontal wires are resistance welded at each intersection. The construction of the panel ensures that it is formidable in both strength and performance.

- ✓ Prevents goods from being passed through the fence line from secure facilities
- ✓ Extremely strong design with high attack resistance
- ✓ Difficult to cut, climb or attack and features a secure vandal resistant fixing to post strap.
- ✓ Protection of high risk security premises and assets
- ✓ Ultimate security fence with the option of adding electric security fencing and PIDS systems.

Paramesh 358 has the unique ability to offer a meshing fencing panel up to 5.2m in height. The product is widely specified by prisons and military establishments and strategically important sites. Paramesh 358 is ideally suited to these secure types of application, as the mesh panels are extremely difficult to climb or penetrate; the small mesh aperture is also effectively finger-proof and is difficult to attack using conventional hand tools.

Another key attribute of Paramesh 358 is its resistance to burrowing: for high security areas a concrete sill can be specified to deter attempts to burrow or dig under the secure fence line.

Innovative British Fencing Solutions

Autocad Design

Our state of the art drawing office uses the latest in Autocad design ensuring both compatibility and accuracy with your individual site requirements.

UK Manufacturing

Paramount Steel Fence has manufactured in the UK since 1984. With over 30 years of experience we can provide secure solutions for use in most environments.

Long Life Cycle

All of our products are designed to provide the end user with years of trouble free service. We offer Galvanising, Pre treated systems, and Powder coating in any RAL colour within our product portfolio.

National Deliveries

Operating a national fleet of HGV vehicles including rigid lorries and articulated units, ensures we maintain fast and reliable distribution of our products around the UK.

Fence Height (m)	Panel Height/Width mm	Post length	Number of fixings	
			Intermediate posts	Corners- 2 Clamp bars
2.0	2007 x 2515	2700	7	14
2.4	2400 x 2515	3100	9	18
3.0	2997 x 2515	3900	11	22
3.6	3607 x 2515	4500	13	26
5.2	5207 x 2515	6300	18	36

Applications include:

- ✓ Prisons
- ✓ Data centres
- ✓ Cash Transfer Centres
- ✓ Banking
- ✓ Vehicle compounds
- ✓ Utility companies
- ✓ Industrial sites
- ✓ Power stations
